

Mid Valley Pipeline Spill Update for 10/30/2014

- There are 316 personnel working the response. As the response moves from response to remediation Sunoco will downsize accordingly. EPA has 1 FOSC, 2 contractors, a boat and a mobile command post on scene.
- Total spill volume released was 4509 bbl.
- Recovered crude oil is 3642 bbl. New recovery estimate reflects calculations from oil entrained in soil and absorbents.
- 2897 bbl. of the recovered crude oil has been transported off-site and recycled at Sunoco's Haynesville Station, in Haynesville, LA.
- Water collected to date is 3791 bbl. with 1020 bbl. shipped offsite, 1656 cubic yards of soil, debris and sorbent have been collected, none of which has been shipped off-site at this point.
- Wildlife rehabilitation efforts continue. So far, 49 animals have been cleaned, 41 animals released and 480 animals have died, of those approx. 2/3 were fish or reptiles.
- Media interest remains low.
